## Alpha Energy Solar Mounting Kit

Alpha Energy would like to inform you about a new solar mounting system which is available to you.

The Solar Mounting System comes with adjustable mid and end clamps

### NEW SOLAR MOUNTING RAIL KIT

- The new rail has an easy to fit rail splice kit.
- The mid clamp is adjustable from 35-50mm.
- The end clamps can be use from 35-50mm depth solar panel.
- The plate is also new, can be installed together with the mid clamp
- The new style rail samples will be available this week.

### BENEFITS:

- Components can be supplied in kit form (1 kit per carton)
- Adjustable end clamps reduces the number of components to be stocked in warehouse
- Adjustable mid clamps also reduces the number of components to be stocked in warehouse
- Easy to install Splice Kit
- Reduces warehouse packing time to pack kits
- Reduces chance of incorrect components being shipped to Customer
- Reduce installation time as the rail versatile is easy to install.
- All Components are manufacture to Australian Standards
- Local Support is available from Alpha Energy
- Other components readily available demand, including Solar Panel Earthing System, Tin Roof Clamps, Tilt Kits, and Solar Cable
- Competitive Pricing
- If Ordered in large quantities your **COMPANY LOGO** can be put on the packaging
